

KLEIN & WILSON

NEWPORT BEACH

Klein & Wilson's trial results speak for themselves.

Klein & Wilson has won "bet-the-company" cases against some of the biggest firms in the country. The two-lawyer firm has recovered almost \$100 million in business litigation matters and has won defense verdicts in which millions were at stake. Clients choose Klein & Wilson over larger competitors because both the firm's attorneys, Gerald Klein and Mark Wilson, are experienced trial lawyers, not "litigators" who do not try cases.

When asked what makes Klein & Wilson different from its competitors, Wilson says, "We assign a single attorney to supervise every aspect of the case from discovery to trial. Bigger firms often have one set of lawyers work up the case and another set try the case. The trial lawyers do not acquire a full understanding of the case, which can lead to disaster at trial."

The firm is also known for its use of cutting-edge technology and multimedia presentations at trial as well as conducting its own mock trials to evaluate the strengths and weaknesses of its cases. Klein & Wilson's trial results speak for themselves.
